Ian Wilson – GHRL

I would wholeheartedly personally recommend the services of Ian Wilson of GHRL. Ian has been working with Activ Web Design Franchisees in Scotland to help us develop our website sales. He met with us and even gave up part of a Saturday in doing so. He discussed requirements with us and gave us excellent advice followed up by action. He delivered a service to us in a very professional and timely manner providing us with a full report on all contacts made. This enabled me to focus on the area of my business that I am best at.

I would recommend Ian to any business looking for management support.

Yours sincerely
