

Interim Management

What is Interim Management?

Interim Management simply means that you can access specialist management resources to assist with the growth of your business – it's a modern, dynamic, and flexible form of Outsourcing.

How Does it Work?

The great benefit of Interim Management is that YOU control the cost. You can “turn the tap” on and off as necessary.

For example, as your business grows, you will reach the point where it would be beneficial to have the services of a Senior Manager, Operations, Sales, or Financial Director, however the cost of such a resource may be prohibitive.

With GHRL, you only make use of us as and when required. Initially that may be as little as one day per month, however it could be as much as two days or more per week, or you may require additional management resources for a specific project, or to address tasks from your wish list.

Either way, with our Interim Management Service, you get all the benefits of having experienced management resources, to a timetable of your choice, at a fraction of the conventional cost.

Is it Relevant for Me?

GHRL work with businesses of ALL sizes, and our clients come from a wide and varied range of industry sectors.

Services We Provide

GHRL provide Interim Management Services in the following areas: -

- Accounting & Finance
- Sales & Business Development
- Operations & Process Review
- Quality Management
- Environmental Management
- Positioning & Marketing
- Business Management

The way we do business

Our straightforward style means that we become a valued member of your team. We don't speak Jargon, and we don't mess with our words. We tell it exactly as it is.

We're also *not* consultants. We don't tell you what we think you should do, charge you a big fee, and then leave you to get on with it. We actually roll our sleeves up and get on with the job of implementing whatever changes need to be made in order to improve your business.

Interim Management is -

Advice WITH Action.
